Re DLIR on "Shuang Chong Tao
SSA Launch Test Site B"
Jan 70:

- Beautiful job -- both text and layout. As definitive, if not more so, than any I've seen.
- Watch the long paragraphs in both the Abstract and the Basic Description (including checkbook sections). Break them up as much as the logic of the substance permits.
- If PSE participated in the editing & layout work, please pass on my remarks.

Re BTR on "Training Facilities,
Say Shown Hiroto Test
Center", ~~interview~~ Jan 70:

- A nicely done update, layout
of graphics excellent.
